

Vehicle Transport with CarsArrive Network is Smart, Simple and Safe

CarsArrive your Trusted Partner

CarsArrive is the nation's premier outsource provider of automated vehicle shipping services. We've been helping businesses transport vehicles for over 16 years. The CarsArrive network provides shippers a trusted choice for all your transport needs. Our web-based system provides you with instant access to our nationwide network, allowing you to track the status of your vehicles throughout, from start to finish.

Huge Network of Available Transporters

Our network of over 4,500 transport companies and 30,000 trucks, coupled with our expertly managed services, means you never have to wait for your vehicles to be dispatched to the closest available truck.

Moving Inventory the Smart Way

By matching your available loads to a network of fully-insured carrier partners, CarsArrive can guarantee your vehicles get dispatched and delivered to your buyers fast and hassle free. When a vehicle is shipped through CarsArrive, you have full visibility and tracking. Each vehicle's location is monitored providing verification of pick up and drop off. Plus, you'll receive regular updates regarding every shipment status along its way.

CarsArrive's Internet-based platform allows shippers to review price quotes, delivery times, and review available transport listings. In addition, our expertly managed service means you never have to worry about your vehicles getting delivered on time and at the right price.

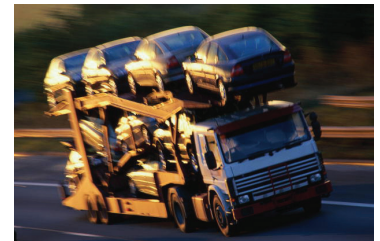

Simple to Ship

Ordering vehicle transport doesn't get any easier when you ship your vehicles via CarsArrive. Utilizing an integrated solution, CarsArrive allows shippers to post loads online and immediately make them available to our vast carrier network. Once received, loads are offered real-time to thousands of waiting trucks and assigned 24/7 on a first-come, first-served basis. CarsArrive verifies drop off by requiring a bill of lading for each transaction which is made available for you to review online.

"I trust Cars Arrive Network to handle all my loads. Their transport team has the experience and dedication to ensure my vehicles arrives safe and secure every time."

—Scott Barwick,

Certified Pre-Owned Manager,
Crown Acura, Greensboro, NC

Automated Tools for Carriers

CarsArrive Network makes it easier for carriers to locate and secure delivery assignments. When a load is posted by a shipper, the carrier gets an instant notification of an available load via fax, email, or online notification. All load details are posted real-time to CarsArrive Network's online database; so carriers can scan available loads and make immediate decisions about committing to a delivery assignment. Best of all, carriers are guaranteed to get paid as soon as proof of delivery is submitted.

Every carrier is assigned a unique ID which allows them to take loads from their cell phones and receive an automated dispatch fax and release form.

Partnering with CarsArrive Network transport provides carriers access to more loads and added conveniences:

- All loads are live and ready for consignment
- Loads are automatically consolidated for efficient routes
- Check for loads by phone, fax, email, or online 24/7
- Reduce deadheading and backhauls
- Have new loads waiting after you unload
